

PCI-E Full gigabit wired high speed network Adapter

Model: BL-GP8168

工

Features

Support bus interface PCI Express 1x

Support IEEE 802.3, IEEE802.3u and IEEE802.3ab standard

Support transferring speed up to 10Mbps/100Mbps/
1000Mbps under Full duplex mode

Support IEEE802.3x flow control and remote wake-up

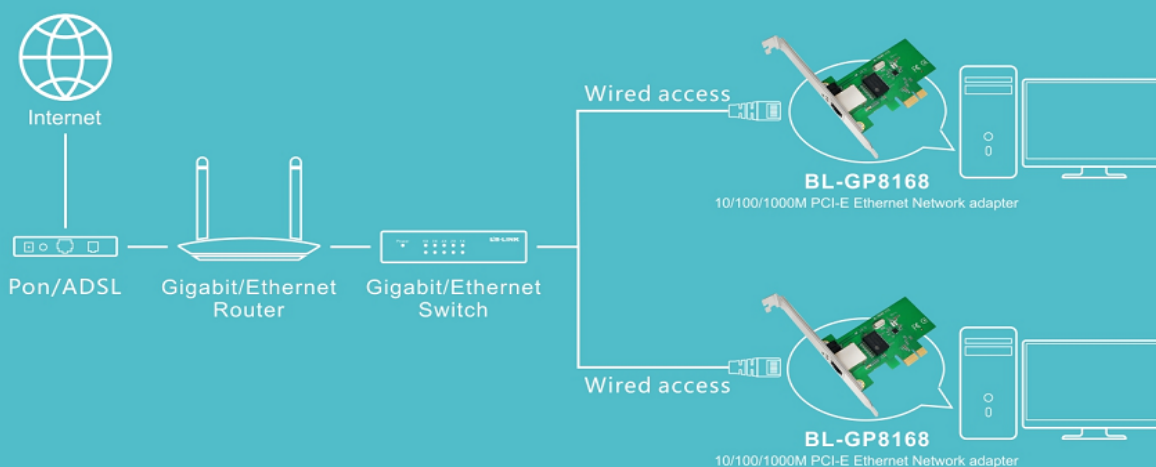

Support IEEE802.1p priority control

Support MDI/MDI-X Network cable adaptive

Provide LED show network connection status

Support Win XP/Vista/Win7/Win8/Win8.1/Win10 OS

Applications

Product specifications :

Support bus interface PCIeExpress 1.0A

Complies with IEEE802.3 , IEEE 802.3U and IEEE 802.3AB standards

In full-duplex mode , the transmission rate is up to 10 Mbit/s , 100 Mbit/s , and 1000 Mbit/s

IEEE 802.3x traffic control , supporting remote wake up

Supports IEEE802.1p priority control.

支持IEEE 802.1q VLAN

Support MDI/MDI-X continuous automatic crossover

Provides LED indicators to display network connection status

Support Win XP/Vista/Win7 /Win8/Win8.1/Win10

PE-P8168 V2.0

1000M
